BluVanti™ – BluVanti is a commercial-grade Bluetooth interface allowing cell phone conference calls to integrate with existing room microphones and loudspeakers. Any Bluetooth-enabled device will work, allowing integration with other conferencing applications such as Skype, Google Hangouts, etc. It can also be used to stream music from a connected device.

Comrex – Comrex has consistently applied the best in current technology to the needs of broadcasters. From the time of founder John Cheney's first products in the early 1960s, Comrex has had a long tradition of providing a very down-to-earth answer to a universal broadcast need—bringing high quality audio into the studio from virtually anywhere, economically, at a moment's notice.

Contemporary Research – Known for professional TV tuners and AV routers, Contemporary Research also provides QMOD HDTV Modulators, Display Express Control Systems, and classroom integration solutions.

Dycap – Dycap's award-winning software uses advanced image processing to recognize individuals in your pan-tilt-zoom camera's video stream. Once a user is recognized, Perfect Track intelligently controls the camera to smoothly follow that user—all without any tracking beacons or excessive equipment.

Hitachi – Hitachi projectors are used in education, business and houses of worship. Short-throw projectors are designed to free users from the restraints of obstructive shadows or light shining in the presenter's eyes. Whether classroom, collegiate or professional, Hitachi projectors fit every conceivable need for AV customers.

Intelix – Intelix products range from traditional matrix mixers to analog-to-digital converters, but the company also manufactures an extensive line of HDMI-over-coax extenders, distribution amplifiers, scalars, converters, matrix switchers, room combiners, and multi-zone paging systems, as well as the broadest line of AV-over-twisted-pair extenders, including solutions for multiple formats of audio and video, VGA, DVI, HDMI, USB, and PS2.

KSI Professional – KSI Professional offers support furniture for corporations, institutions of higher learning, and government conference rooms. KSI lecterns and presentation systems furniture are aesthetically pleasing and strong. KSI Loudspeaker Systems feature innovative style coupled with accurate acoustical design to yield unsurpassed performance. KSI's advanced manufacturing and design provide loudspeaker systems for today and tomorrow.

Leon Speakers* – Since 1997, Leon Speakers has been dedicated to delivering high-quality, hand-crafted sound solutions for the flat panel revolution. One of Leon's best-looking products is the Edge media frame, custom built to house any TV and Leon's ultra-thin soundbar. Other products include soundbars built to match the exact width and finish of every display, vocally optimized speakers for telepresence and high performance presentation systems, and media décor/TV concealment systems.

Liberty AV Solutions – Liberty AV Solutions has earned a reputation as the premier global supplier for wire and cable products by consistently delivering quality products and excellent customer service. Liberty's range of products include interconnects, cable assemblies, speaker cable, specialized control and lighting systems cable, coax, security, data and telecommunications products, fiber optic cable, patch panels, termination and cable management systems.

Marshall Electronics – Marshall Electronics is a privately-owned American company with five distinct operating divisions: Broadcast Video, Professional A/V, Optical Systems, MXL Pro Audio, and Mogami/Tajimi Cable & Connectors. For over 30 years, Marshall Electronics has specialized in the development, manufacturing and distribution of advanced technology and products for professional audio and video applications worldwide.

PDR Mounts – PDR Mounts is an industry leader in quality and craftsmanship. PDR mounts have been load-tested at over four times rated capacity, exceeding UL standards. They are made in the USA with the highest-grade steel and are engineered with ease of installation in mind. You can feel secure knowing that PDR Mounts is the OEM for some of the world's largest consumer electronics corporations.

RGB Spectrum – Since its founding in 1987, RGB Spectrum has established itself as a leading designer and manufacturer of cutting-edge videographic products for audio-visual, industrial, and military applications. With advanced capabilities, proven reliability, and flexible user interfaces, RGB Spectrum's products are preferred by a "Who's Who" list of the world's major industrial, medical, military, entertainment, and academic organizations.

TechLogix Networkx – TechLogix Networkx is a solutions-based organization built by audio-visual professionals dedicated to improving the collaboration experience. In plain English, this means TechLogix provides IP products, switchers, splitters, converters, and audio distribution technology, but also puts extraordinary focus on providing all the information needed to integrate them into working solutions.

Tripp Lite Audio/Visual Solutions – Tripp-Lite is the leading manufacturer of power protection supplies, including UPS systems, AC and dataline surge suppressors, line conditioners, cabling and connectivity products, and network management accessories. Tripp Lite products provide protection to audio/video systems, PC workstations, network file servers, telephone systems, and laboratory equipment.
